UNCG Single Occupancy Restrooms (updated as of 5/17/16)

The University of North Carolina at Greensboro is committed to being an inclusive community that embraces and supports the diverse needs of our faculty, staff, students and visitors. As part of our ongoing evaluation of restroom spaces - and with a core belief that everyone in our community should have ready access to them - we have been working on identifying and designating certain restrooms as single occupancy. These particular restroom spaces are open to all genders and well-suited for individuals needing additional privacy. People of all gender identities and expressions, abilities and medical needs are welcomed to use these spaces. These spaces are available for use immediately. Clear signage will be in place shortly. Thank you for helping the University to maintain these facilities as safe and inclusive spaces for our campus community.

Locations will be reviewed and adjustments made on a yearly basis to ensure the list is up to date. The University is committed to adding single occupancy restroom spaces in all new construction and major renovations of our existing facilities.

Effective immediately, the restrooms listed below are designated single occupancy.
